CARLA FLORIDA

AI Engineer | Agentic Systems, Automation & Machine Learning

carli.f.roman@gmail.com · Bolivia • Remote · linkedin.com/in/carlicode · github.com/carlicode
Platzi courses · Cloud Skills Boost · Credly · g.dev/carlicode · @carli.code

AI engineer with 6+ years across conversational AI research, machine learning, data engineering and, more recently, LLM agents and business automation in production. I build end to end: I understand the problem, design the architecture, write the code, deploy it and keep it running. I've led dev teams and worked with leadership and non-technical teams. I'm also an educator and speaker: AWS Community Builder, Platzi instructor and speaker at PyCon US 2025.

EXPERIENCE

Beezero | *AI Engineer / Tech Lead* — Jul 2025 – Present

AI-driven logistics systems for B2B mobility and operations.

- Lead the development team and the technical direction of the core products.
- Built **Beezy**, a B2B scheduling system for ride coordination.
- Built **BeeTracked**, a real-time tracking platform, shipped in phases with production monitoring.

NowBit | *AI & Automation Engineer* — Feb 2025 – Jul 2025

AI-powered automation for growth and operations.

- Built and validated MVPs using AI agents.
- Designed **n8n** workflows (webhooks, retries, error handling) and trained internal teams to use them.

Dapta | *Head of AI* — Jan 2024 – Mar 2024

Multi-agent systems and generative AI solutions.

- Built multi-agent systems for content generation and AI-powered blog platforms.
- Implemented NLP and RAG solutions; presented the project to the Government of Colombia.
- Automated CRM workflows in **HubSpot** and built LinkedIn automation tools for lead generation.

Earlier experience

- **ICI UPB**, Artificial Intelligence Researcher — Oct 2020 – Jun 2023
  Conversational AI with deep learning and **Rasa**; presented in the USA, Switzerland and Uruguay.
- **Trascender Global**, ML Engineer (Freelance) — 2021 – 2022
  Computer vision (OpenCV, TensorFlow) and ETL pipelines.

SELECTED PROJECTS

- **WhatsApp AI Sales Agent**: LLM agent that qualifies leads from Facebook Ads and sells course enrollments over WhatsApp, with QR payments approved by a human. OpenAI + AWS.
- **AWS Builder articles**: tested, repo-backed comparisons of AI agent frameworks (Strands Agents and others).

SKILLS

AI & Agents	LLMs (OpenAI, Claude, Gemini), LangChain, Strands Agents, RAG, multi-agent orchestration, prompt engineering, fine-tuning
Machine Learning	TensorFlow, PyTorch, Keras, computer vision (OpenCV), NLP, conversational AI (Rasa), training, evaluation and optimization
Automation	n8n, webhooks, HubSpot, REST APIs, error handling, retries, branching logic
Data	Apache Spark, PySpark, ETL, large-scale data pipelines, SQL
Programming	Python
Cloud & DevOps	AWS, Google Cloud, containerization
Tools	Claude Code, Git/GitHub, technical documentation

EDUCATION

Master's in AI for Software Development — *In progress*

B.Sc. in Systems Engineering, Universidad Mayor de San Simón

COMMUNITY, SPEAKING & AWARDS

- AWS Community Builder (2025)
- AWS User Group Leader
- Organizer, AWSome Women Summit LATAM
- Women Techmakers Ambassador (2024)
- Speaker, PyCon US 2025
- Speaker, Platzi Conf Colombia 2024
- TEDx Univalle (2023)
- ACM-ICPC Bolivia (2016), 3rd place
